

# CS Plus Jr

## Portable Cap Sealing System

The portable CS Plus Jr provides dependable, versatile cap sealing in a convenient, hand-held device designed specifically for low production applications and laboratory development programs.

This user-friendly, cost-efficient method for applying induction seals includes a simple, multi-function LCD display and its performance may be enhanced through a range of optional equipment — including a stand and conveyor sealing head.

The CS Plus Jr cap sealing system delivers strong, tamper-evident seals that prevent leakage and ensure integrity for a range of products, including food, pharmaceuticals, beverages, cosmetics, solvents, petroleum products and chemicals. To learn more or to place an order, contact us at **800-231-6008** or **sales@cap-sealing.com** today.

## BENEFITS OF CAP SEALING

---

Tamper evident

---

Leakproof

---

Longer shelf life

---

Reduced pilferage

---

Enhanced customer confidence

---

# CS Plus Jr

## FEATURES

- Heavy-duty rectification with line transient suppression and capacitor filtering
- Portable, lightweight and rugged hand-held design
- All stainless steel construction
- Automatic coil recognition, built-in thermal protection and power monitoring
- Built-in thermal protection of the sealing head
- Light and flexible power cable — 6 ft. standard (extendible up to 20 ft.)

- User-friendly control panel with multi-function programming
- Ready/Heat On/Fault Status lights
- End-of-cycle and fault audible signal
- Up to 5 programs can be set by the customer and stored in memory
- Input for a foot switch or remote start/stop operation. Foot switch is included with the unit
- Timer control:  
0–9.9 sec in 0.1 sec increments,  
10–30 sec in 1 sec increments
- No load (missing foil) detection circuit

## SPECIFICATIONS

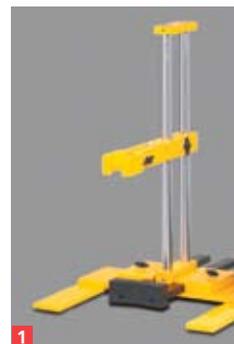

Input Voltage	95–245 V AC 50/60 Cycle
Phase	1
Power Rating	1kW at 110 V AC 1.2kW at 220 V AC
Ambient Temperature Range	32–97°F (0–36°C)
Height	12" (30 cm)
Width	7" (18 cm)
Depth	9.5" (24 cm)
Weight	12 lb. (5.5 kg)
Cap Size	Seals closures from 5mm to 120mm, inc. specialty

## BENEFITS

- **Convenient and portable:** Sturdy yet lightweight construction with an ergonomic design
- **Economical:** Ideal for low volume applications such as laboratory testing
- **Practical:** Modular design expands capabilities with optional equipment
- **Dependable:** Backed by Lepel's more than 40 years of experience providing trusted solutions

## ACCESSORIES

- **Hand-Held Coil Stand (1):** Features a compact, bench-top design and eliminates the need to hold the sealing head. Allows easy centering and accurate container positioning, and ensures sealing repeatability.
- **Sealing Heads (2):** Four sealing heads are available:
  - Small for caps from 5mm to 58mm
  - Large for caps from 20mm to 83mm
  - Extra large for caps from 20mm to 120mm
  - Special for Yorker, sport caps, etc. from 5mm to 38mm
- **Conveyor Configuration (3):** Use the CS Plus Jr power supply for low volume conveyor applications with a conveyor sealing head and stand.
